

JASH LIU JUNIOR VICE PRESIDENT

List any previous leadership positions or experiences

- I was the team captain for the class of 2022 for Class v. Class Basketball two years in a row. I am also currently an Assistant Team Leader for Vex Robotics team 675B.

Why do you want to be a member of Student Council? Why are you running for the position that you are running for this year?

I want to be a member of Student Council because I want to be able to have a say in what happens to the student body. I think being part of Student Council will allow me to be more involved in the school community as well as the community at large.

From your perspective, what is the role of the Student Council at GSMST and in our community at large?

- I believe that the role of the Student Council at GSMST is to connect the students and community together. Student Council plans events that allow students to interact with each other as well as with the community.

List up to three qualities would you use to describe an effective leader. What leadership skill(s) is your strength? How will you use that skill(s) to benefit Student Council and GSMST?

- Three qualities that I would use to describe me are passionate, determined, and trustworthy. My passion for this school will drive me to do what is best for the school and students. My determination will ensure that I do everything I can to make GSMST the best environment for the students. Finally, I am a trustworthy person. I think it is very important that the student body trusts me to make good decisions.

What would you most like to improve about your own leadership skills to become a better leader?

- I think something I could improve is my time management. I always complete my work on time, but I think I could finish it more efficiently. I think by managing my time better, I could be a better leader.

Describe an activity for a new event that Student Council could host.

- I think Student Council could host a pen pal event, especially right now during the pandemic. Because face to face interactions may be difficult, I believe a pen pal system could allow students to interact with each other in a fun and interesting way. I think this will be especially beneficial for freshmen who have not really had a chance to interact with each other.

How can Student Council improve its communication with the student body?

- I think Student Council could improve its communication with the student body by doing more surveys. This can include both Google Forms and Instagram surveys which students can fill out quickly. I think quick and easy surveys are important because they provide feedback from students without being too difficult to the point where students don't feel like filling them out.

What do you think is the single greatest challenge facing our GSMST community and how can Student Council help to resolve this challenge?

- I think one of the greatest challenges facing our GSMST community right now is stress due to the pandemic. The current situation has put a lot of stress on both the students and teachers. I think hosting Zooms where students and teachers get to interact with each other freely would help relieve some stress and improve work productivity.
