

# NICOLE WANG FRESHMAN SECRETARY

---

## List any previous leadership positions or experiences

- In the 5th grade I have experienced being a safety patrol. Then in the 8th grade I was a peer leader and the student council president.

## Why do you want to be a member of Student Council? Why are you running for the position that you are running for this year?

- I am running for secretary not just because it would look good on my resume. But, it will aid me to become a better person so I can help GSMST as a whole. It will allow me to meet new people, share my ideas, and communicate between the student body and higher ups.

## From your perspective, what is the role of the Student Council at GSMST and in our community at large?

- In my perspective Student Council has a major role in all high schools including GSMST. Student council gives students an opportunity to develop leadership, by carrying out school activities and community services. It also carries out events that contribute to the school spirit and communal interests.

## List up to three qualities would you use to describe an effective leader. What leadership skill(s) is your strength? How will you use that skill(s) to benefit Student Council and GSMST?

- Qualities that I would use to describe an effective leader are respect, courage, and communication. I can't truthfully state that I have all these qualities, but one of my strengths are being respectful. Treating people with respect can abate tensions and conflicts, build trust, and improve effectiveness. I respect everyone's opinions and efforts, which will help Student Council carry out their plans with ease. Which helps GSMST stay positive, and function accordingly.

## **What would you most like to improve about your own leadership skills to become a better leader?**

- To become a better leader I want to improve my speaking skills, because an effective leader can communicate his or her thoughts with out struggles.

## **Describe an activity for a new event that Student Council could host.**

- A new event Student Council could host is delivering positive messages throughout their neighborhoods. Since we are in a pandemic we can not send random positive messages throughout the school, so why not send them for the community? Student Council could write on sticky notes and pop them into mail boxes or write on sidewalks to brighten up one's day.

## **How can Student Council improve its communication with the student body?**

- Student council could improve its communication with the student body by reaching out through social media. During this day and age almost all student have social media whether Instagram, Snapchat, Twitter, or Facebook. To reach out Student Council could post google forms on their stories, to gather data and suggestions on how to improve our GSMST community.

## **What do you think is the single greatest challenge facing our GSMST community and how can Student Council help to resolve this challenge?**

- I believe the single greatest challenge facing our GSMST community is staying positive even when our world is knocked upside down by our grades. To resolve this challenge it would take a lot of effort, but it's the little things in life that really counts. Student council could host a time once a week or even a month that allows everyone to laugh out loud, watching funny videos or sharing hilarious content.
